July 2025, Issue #5

4th Workshop

10:30-11:00

Multi-Agent Reinforcement Learning for Sustainable Sensing and Privacy-Preserving Collaboration
Shandong University (SDU), China-Prof. Lei Liu

11:00-11:30

Intelligent Backhaul Selection for 5G/ B5Gb Network Slicing using IAB and UAV networks
Greensphere Unipessoal Lda. (GS), Portugal – Prof. Antonio Morgado

11:30-12:00

Few-Shot Transfer Learning for Trust Score Calculation in loT Devices
Enebula B.V. (eNEB), Netherlands –Prof. Polyxeni Nakou

12:00-12:30

Online Active Learning for Lstm-Based Network Traffic Prediction
Universidad de Valladolid (UVa), Spain – Prof. Pablo Casaseca

12:30-13:00

Unmanned Ground and Aerial Vehicles for Mission Critical Communication
CIP Technology Ltd, UK (CIP), UK – Dr. Muddesar Iqbal

13:00-13:30

Accelerating Clustered Federated Learning in Dynamic D2D Networks with Transferable GNN
University of Exeter (UNEXE), UK – Miss. Yuhong Jiang

13:30-14:00

Sustainable Power Optimization and Privacy-Aware Collaboration
China University of Petroleum (CUP), China – Miss Zixuan Liu

14:00-14:30

Deep Reinforcement Learning for Intelligent Edge Computing
University of Exeter (UNEXE), UK – Dr. Yognchao Zhang
